## Annual State Convention of JC this Week

completing final plans today for the state Junior Chamber of Commerce four-day convention which starts here Thursday.

An estimated 1500 delegates and their wives are expected to attend, making it the largest event in the history of the California organization.

HEADQUARTERS will be El Mirador hotel, with delegates staying there and many other hotels in the Village.

Highlight of the convention will be election of officers for 1954, with the three candidates for president, Phil McClure of San Francisco, Andy Cardono of Downey, and Phil Knox of Oak-land, all campaigning throughout the state during the past

The convention starts Thurs day afternoon with registra-tion, followed by "Night on the Town," a Palm Springs event. Every night spot in Palm Springs is cooperating in the welcome.

ONE OF THE OUTSTANDING speakers is Paul G. Hoffman, chairman of the board of Studeand former top government official.

## THAT NARROW BRIDGE-MORE CARS DAMAGED

Twice in one week!

This is the record of accidents on the narrow Tahquitz Bridge, which is currently under study by the State Highway Commission for widening from two to four lanes.

No one was injured in the mishap at 11:57 p.m., Friday, when the accident on the bridge approach was followed by another one within minutes.
The car driven by Gayle Freeman Teale, 43, 316 South Palm Canyon drive, struck and demolished the guard rail on the approach, stopping a short distance away from the bridge itself. Damage to the bridge was estimated at \$150, and to the car \$250.

## Indonesia to be Subject of Museum Lecture Saturday

The strategic importance of Indonesia today is the subject of a talk to be given by Miss Beatrice Borst, noted autfor-lecturer, at the Desert Museum Saturday, at 8 p.m.. The public is invited to attend.

"Indonesia today ranks sixth among the nations," said Miss Borst, "and is the largest insular country in the world, and potentially one of the richest. If we lose her to Communism, we will have lost 79,000,000 people from the democratic world."

Dealing with Indonesia's place in the world market today, its present internal difficulties, and threats from outside, Miss Borst will analyze the people and cultures of the 3,000 islands. While enroute to Australia and New Zealand, Miss Borst was invited by the Dutch government to go to Indonesia to study the economic rehabilitation of the Archipelago. - As excitement dies down over the announcement that the Mt. San Jacinto Tramway is assured, there will be much speculation about the effect that this huge project will have on Palm Springs. Having one of the nation's most spectacular tourist attractions right at our very doorstep should bring about many changes. They might not all be for the good — few changes are — but the many benefits so greatly outweigh any drawbacks, that many people believe that the building of the Tramway will be a great boom to the entire Palm Springs resort area. Fulfillment of the Tramway dream would give this community an entirely new outlook. But before we go in to the prospects, it might be well to set the people straight about what the proposed Tramway will be and how it will operate. Many have some very wrong ideas about the project, and others may know little about it. Here are three important factors to bear in mind.

The project is designed as a tourist Tramway NOT a skilift, as many people have thought. It is designed to transport people into the heretofore inaccessible and beautiful slopes of Mt. San Jacinto, solely for the sake of the trip slopes of Mt. San Jacinto, solely for the sake of the trip itself. It would afford them one of the most magnificent views to be seen anywhere in the nation. Skiing facilities would be provided up there, but they would be incidental to the main purpose.

2. Of great importance is the fact that the area into which people would be transported is all within the boundaries of the Mt. San Jacinto State Park. By agreement between the Tramway Authority and the State Park Board, the area will will have the same protection as any other state park. There will be no commercial development. Not even over night facilities will be provided except for a Tew employees, who will operate the Tramway and dining facilities at the upper

3. The Tramway will not be built with public funds. It wil cost the taxpayers nothing. The project will be financed through the issuance of revenue bonds, purchased by private interests and retired with toll revenues.

Plans for the future development of Palm Springs will have to be reconsidered with an eve to the effect which the Tramway will have on the community. In the first place it will undoubtedly be a great stimulant to Summer business and do more than anything that has yet happened to make this an all-year resort. Of the tens of thousands of Summer vacationists who pass this way, a great many will want to stop over in Palm Springs and take the Tramway trip. Another effect will be that we will have a great many more visitors throughout the year for short stays. This will greatly overtax our present parking facilities and additional off-street parking must be provided.

Improvement of Highway 111 will be badly needed. Thousands of motorists each month who have been using Highway 99 will be diverted to 111 because of the Tramway attraction. No doubt this will be taken into consideration by the state highway department, as soon as work is actually started on the Tramway. At the same time, building of the Highway 111 by-pass around Palm Springs would be of vastly greater importance. This would help more than anything else to avoid portance. This would help more than anything else to avoid pleted thought would emerge serious traffic congestion on Palm Canyon drive and Indian into his conscious mind in orayenue especially during our busiest season. avenue, especially during our busiest season.

Our whole program of advertising and publicity for the community will have to be reconsidered when the Tramway becomes a reality. Not so much that we will want to advertise the Tramway, but that we will want to impress upon those who come for the Tramway trip the many other advantages that Palm Springs offers for the vacationist or Winter resident. Here, too, we will find an opportunity to overcome a few of the draw-backs and capitalize on many of the advantages. Building of the Tramway will, of course, effect Palm Springs and this entire area in many others ways, most all of which will be favorable. It is not too early to begin making plans. The revenue bonds will, of course, have to be sold before face from deep in his unconbuilding of the Tramway is assured, but the main obstacles have now been overcome and prospects look bright.

Palm Springs is in the limelight again and the future looks righter than ever. brighter than ever.

## THIS SIDE OF THE SUN

Up ere dawn, it's not much fun, But had to prep to save some sun.

So when daylight time came in at 1 a.m. Sunday, I had the edge on most of you. I was ready. I went into rehearsals for the Summer hours two weeks ago. Did some rigid training. Sort of tapered off standard time. The first day or two, got up ten minutes earlier. Then 20 minutes. The last four daws I was getting up an hour earlier. And when the time changed, although I wasn't up to see it, I was ready. Come, September, I'll reverse the proceedings and be prepared for standard

NOTE WHERE that narrow oridge on South Palm Canyon Villagers who have been sumbridge on South Palm Canyon drive claimed five more cars this week Two accidents, one two-car, one, three. With the Village growing on both sides of Tahquitz creek at a tremendous pace and the entire desert from Palm Springs' to La Quinta also booming, traffic on Quinta also booming, traffic on P. Canyon drive is just getting too big for that bridge. It's another argument for a second balfway between the drive and Sunrise way. Some-one suggested they paint a double line from the Y to bedouble line from the 1 to be-yond Mesquite, a double line meaning no crossing it. Every time you take a drivers' license test you are supposed to know what a double line means, But think it would do any good. How many times have ou seen drivers cross a double

ALSO NOTE in the news that the new mayor of Indio is a man named Gordon Cologne. With a name like that I bet no one can claim that his camaign smelled—at least, smell paign smelled—at least, smelled bad... Elmo Purnel stopped me the other day and said that he would see to it that the clock on the front of the market building he manages in cahoots with Hutch Mosely, is going to be fixed. For three years now that clock has proclaimed 6:32 all day and all night, a.m. and p.m. But obnight, a.m. and p.m. But ob-served yesterday morning that it was still 6:32.
